YELLOW JACK AGAIN.

The Disease Has Appeared at
Key West, Fla.

WASHINGTON, Sept. 1.—Surgeon General Sternberg has received a telegram from Key West, Fla., confirming the report of the outbreak of yellow fever there.

TODAY'S WIRE SPARKS.

AMSTERDAM—Word received here says a steamer sunk in the North Sea and nine persons were drowned.

SHANGHAI—The Chinese are making continual attacks on the Germans in Kiao Chau Hinterland. The German embassy has sent an ultimatum to the Chinese government demanding order be restored.

PARIS—The Petit Journal deprecates the internal disorganization caused by the Dreyfus case which, it says, precludes the possibility of France avenging Fashoda as it might, in the event of war between England and Boers.

PHILADELPHIA, Sept. 1.—There is probability of a general strike of street car men here Monday morning, which will tie up the cars during the G. A. R. encampment which begins then. Trouble has been brewing among the men for a week. They say they will demand two dollars for ten hours a day.

BRIDGEPORT, Conn., Sept. 1.—At Black Rock this morning four children were drowned and the father of one of them perished while heroically striving to save his little ones. Dead: Florence Hitt, Ethel Hitt, Tommy Toehler, Elijah Middlebrook and Mai Middlebrook.

PARIS, Sept. 1.—The Matin publishes the official details of the atrocities committed by the Voulet expedition in French Sudan. Captains Voulet and Chanoine had been declared outlaws for murdering Lieutenant Klobb and Captain Mezier, who were sent to relieve them. The Matin says the expedition was ordered to kill every native encountered. All native villages through which the Frenchmen passed were burned.

Next year's estimates for the navy will be submitted to Secretary Long today. They show considerable increase. The largest item is \$18,000,000 for "increase of the navy," which is \$5,000,000 more than any previous estimate under this head.

Three hundred miners employed by the Keeler Coal company at Bragg, Ind., went on a strike yesterday because they were forced to buy powder at the company's store at a higher rate than was charged elsewhere.

UNIMPORTANT

What Major Hartman Says of
Information in Bordereau.

Facts Contained Therein Known
in Germany Four Years Before
Dreyfus' Alleged Sale.

RENNES, France, Sept. 1.—A number of minor witnesses were heard during today's session of the Dreyfus court-martial. They testified for and against the accused. By order of President Jouhaux numerous letters were read from the court testifying to the good character of M. Du Breuil, who testified a week ago that Dreyfus had treasonable relations with a German officer at the house of a woman named Bodson. Du Breuil then reiterated his testimony regarding Dreyfus' relations with Madame Bodson and said it could be ratified by their former valet de chambre. Dreyfus arose and indignantly denied ever meeting any forger at Bodson's. A hostler named Georges then testified having seen Dreyfus at Mulhouse in 1886 attending the German maneuvers and was horseback in company with a German named Kullman. Captain Kullman was next called. He denied having ridden with Dreyfus to see the German maneuvers. Major Lemmonier, who was in the second bureau with Dreyfus, testified they all knew the accused was not going to the maneuvers in 1894, therefore it was improbable he would have written the last line of the bordereau. "I am just leaving for maneuvers."

A few more unimportant witnesses were heard after which Major Hartman took the stand and testified the documents cited in the bordereau were without value and offered to prove Germany knew about Dreyfus in 1890. The witness' testimony was not finished when court adjourned for the day.

FATAL EXPLOSION.

Six Men Killed and Others Injured and Property Wrecked.

PITTSBURGH, Sept. 1.—Six men are known to have been killed and over a dozen injured by a terrific explosion at the Republic Iron Works this morning. The building was almost totally wrecked. Several bodies have thus far been found. The dead are: William Thomas, killed by falling debris; Thomas Benant, Jas. Feidlingham, Edward Matthews, unidentified laborer; John Morzensky. Several are injured and cannot recover.

LOOKS WARLIKE.

If Oom Paul Has Sent Reported
Refusal Trouble Must Follow

LONDON, Sept. 1.—A dispatch to the Central News from Pretoria says Kruger's reply to Chamberlain's latest note, suggesting another conference at Cape Town, is a refusal. Such a refusal, if facts are as stated, would mean war.

KILLED FIVE HUNDRED.

LONDON, Sept. 1.—Advices from the Congo Free State say the government troops routed a rebellious tribe, killing 500.

Within the past year a great volunteer army has been mustered out, and so has the larger half of the regular army as organized for the war. Nearly 40,000 regulars have been recruited again since the close of hostilities with Spain.

DELICIOUS TOMATO SAUCE.

Twelve large ripe tomatoes chopped and strained through a colander; one large sweet pepper, chopped; the onions, chopped; one tablespoonful black pepper, one tablespoonful cayenne, one tablespoonful oil, one tablespoonful vinegar, salt to taste; stir all together and put in jars. Will keep a year. Do not cork.

FOR MUTINY.

Three Roustabouts Have a Hard Time
With the Captain.

Tim Scott, John O'Neal and Joe Woods, colored roustabouts, came down the river last night on the "Red River," a new boat just out of the Jeffersonville docks, en route to Red River. When they reached the city, they asked for their money, saying they were ill and could go no further. It appears that the clerk did not desire to give them money unless they found someone else to take their place. The boat's steward objected, declaring that they shipped to go no farther than Paducah, and did not know anyone here.

At Caseyville the boat was on the bar about three days, and this delayed them and made many of the men ill. The clerk of the boat, however, informed Officers Gourieux and Heron last night that the three men refused to work themselves, and had persuaded others not to work. Two gangs had refused to work, he declared, and they had to go to Ninth and Washington to get men.

The clerk was not present when the men were arraigned before Judge Sanders this morning, however, and there was no evidence against them. The boat has gone to Alexandria, La., and with it went the clerk, the only man who could testify against the men. Judge Sanders didn't think the men were guilty anyway, as one of them, "Brook," who has been a roustabout for eighteen years, had called on the judge himself for advice.

RUSH IN COAL.

People Are Getting It In Rapidly
In Other Places.

Coal dealers report the greatest rush in the coal business known in years. This is probably the result of last year's coal famine, and in Chicago the coal men cannot supply the demand.

The railroad companies have all they can do to furnish coal cars, and many times find it impossible to haul all the coal ready for shipment. If people in Paducah would begin laying in their coal, they would experience nothing similar to what they had to go through with last winter, and it would be no inconvenience to them, as coal is something that will keep if the coal house is securely locked.

ST. MARY'S ACADEMY.

Owing to the intensely warm weather now prevailing, class will not be resumed at St. Mary's Academy until Monday, Sept. 11, instead of Monday, Sept. 4, as had been previously intended. For further particulars in regard to terms, etc., call at the academy, corner Fifth and Monroe streets.

THE LATEST.

There is a serious conflict of authority between the state and federal court authorities at Americus, Ga. Soldiers are patrolling the streets of the city of Darien, Ga., and preventing disorder during the trial of the rioters.

Sandy Fenwick, proprietor of the Duncan hotel at Henderson, was shot and perhaps fatally injured by J. S. Birdsell, a quackswamp agent.

Robbers burned a house at Arlington, Texas. One life was lost.

China has shown such a spirit of opposition in the negotiations between Italy and herself that the Italian squadron in Chinese waters will be reinforced by two torpedo boat destroyers.

THE Y. M. C. A.

An Interesting Meeting Was
Held Last Night.

The Association in a Flourishing
Condition—Plans for
Work

The directors of the local board Y. M. C. A. met last night and State Secretary Rosecrans was a visitor. The report of the year's work was most favorable, and showed a great improvement. Secretary Rosecrans greatly complimented the association on its excellent record.

Arrangements were made for the anniversary on the First Sunday in October, and another meeting will be held on the 12th inst., to complete arrangements for this and for carrying on the year's work.

General Secretary Knox has proven a faithful as well as popular secretary, and is very popular with everybody. He makes about the best secretary the association ever had.

The gymnasium work will begin in a short time, and a young man of the city will be in charge of the classes. Prof. H. Clay Smith was last night elected a director of the association to fill a vacancy occasioned by a resignation.

At the anniversary some of the most prominent speakers in this state and other states will be here to address the members, and it is hoped to make the occasion one of the most interesting in the history of the order.

REV. PRYOR DEAD.

Minister of the County Succumbs
to Typhoid Fever.

Rev. R. M. Pryor, pastor of New Hope church, of the county, died last night at his home near Massac from typhoid fever, aged 47. The deceased was formerly of New Liberty, Ill., but came to this county some time ago and became very popular. He leaves a wife and several children. The funeral takes place this afternoon.

MAY MOVE AWAY.

The Victoria or Dogwood Mills have shut down permanently so far as Paducah is concerned. The factory has been manufacturing the spindles for an English concern for the past several years, Mr. J. H. Mann being the manager, but the supply of timber in this section is exhausted, necessitating a removal to a more prolific section.

The factory employed 25 or 30 men, and did considerable business.

LIVING PICTURES AT PARK

Tonight the stock company will give a double bill comprising the high class comedy in one act, "A Husband in Clover," and the one act farce, "Ruth's Romance." Between the bills the company will give a choice selection of living pictures. This makes a very charming performance for a night's entertainment. There will also be a dance in the pavilion.

SMALL BLAZE THIS MORNING

Fire was discovered this morning in the brick house back of the city hall, on Fourth street, occupied by Donie Norman, and belonging to the Robious. The blaze originated near the fire, and did no damage of consequence.

While a boy named Whitaker, aged 12 years, was riding in an empty bank car, at the Oakhill mine near Nortonville, the car jumped the track and the lad was thrown on the track and run over by the cars, and fatally injured.

An attempt was made to burn the town of Albany, in Clinton county. A suspected young man was driven out of the place.

THEY FOUGHT LIVELY.

Two Men Get Into It at Second
and Court Streets.

A man named Coon Coley has a horse, and with that "horse" as Marshal Collins calls it, always goes the first misfortune. The other day an old lady traded a good mule for it, and after driving about a block discovered that the animal was short-winded, and could go no farther after a block was traversed.

The police had to chase Coley all over town and get the mule back. The horse has since been traded to others, and usually the first time the traders meet afterwards, they hit. There was nothing else to do.

It appears that Kiri Broyles was the last man to get the animal. He blamed John Boswell, one of the Gypsies who made the trade, with getting him swindled, and while the two were in Marshal Collins' office at Second and Court streets they suddenly began fighting.

INFIRMARY CLOSES.

Drs. Reddick and Rivers Close
Their Institution.

Drs. Reddick and Rivers have closed their infirmary at Sixth and Broadway, on account of the dull times. Their offices, however, will remain in the building, and the other rooms will be rented out to whomsoever desires them. It had been reported for some time that the infirmary was not paying and would be abandoned. For some reason an infirmary has always been a losing investment in Paducah.

SEWERAGE WORK.

Good Force at Work Today—Third
Street Nearly Finished.

There are about seventeen diggers at work on the sewerage today. The south end of Third street has been completed, and the work is being rapidly pushed.

Superintendent Eiler expects to have a still larger force of men at work during the next few weeks that the sewerage will be in course of construction.

HURT BY GAS PIPE.

Isaac Cartwright, a colored employee of Mr. Ed Hannon, the plumber, had his right leg painfully mashed this afternoon at the shop on South Fourth street by a quantity of gas pipe falling across his legs. He cries for help could be heard for quite a distance.

SPEAKING TONIGHT.

Messrs. Hallam and Sweeney, advocates of the Brown ticket, speak tonight at Yeiser park. All are invited to hear them. They are gentlemen of ability and with a state reputation.

BOYS MUST BE GOOD.

Mayor Lang has received complaint about boys going in the river in daylight at the dry docks at the foot of Jefferson street. He has ordered his officers to keep a strict lookout and arrest all offenders.

WOODMEN CIRCLE.

All members of the Woodmen Circle are requested to be present at meeting tonight. Important business.

At what hotel are you stopping, old boy? Palmer House. That's right, you can get Spencer's at Jack Mann's cigar stand.

FRIDAY, SEPT. 1, 1899.

Is it really true that Mr. Goebel goes about the state armed with a dagger? Maybe it is only a "knife" to use on Mr. Bryan and is not a dagger.

It is rumored that W. J. Stone, of Missouri, is a candidate for a place on the Democratic presidential ticket. Is this why he is coming to Kentucky? Does he also hope to "knife" Bryan?

Mr. Blackburn has gone east ostensibly on business and for ten days will be out of the state canvass. Has the ex-senator followed Judge Rodwine to the mountains of Ohio? Ten days will tell the fact.

It is a safe bet that Ohio will go republican by a bigger majority this year than for several years past. The McLean populist combination will be repudiated by the thoughtful people of the state by a more decisive vote. This is already settled.

The Louisville Post says: "There is a striking similarity between the anti-Dreyfus crusade in France and the Goebel crusade in Kentucky." What a frightful comparison to Goebels. The whole Christian world can but shudder to think what Kentucky is threatened with.

Mr. Goebel owns a bank and has stock in a brewery—two facts in no wise creditable to him—yet he poses as a temperance man. Goebel is a demagogue or he is nothing. No man can at heart be honest in any principle and yet foster the contrary by acts just because the law is with him.

Mr. Wheeler's assault on the honesty of the teachers and school superintendents of the state, as made in his speech at Edgelyville, is growing the rounds. It will soon be followed by the assaults of Goebel at Bowling Green on several of the state's best men. The reckoning day will be in November, but these assaults won't then be wiped out. They will only be filed away for future days.

Mr. Ollie James, of Marion, lately delivered a speech at Owensboro. He is said to have made the point that when Brown intimated that he would accept the nomination of the Louisville convention on a clean vote that was after the platform had been adopted and that therefore Brown was willing to take the nomination and support the Goebel election bill. This idea is said to have aroused great cheers and is such a good point, think the Goebelites, that James is given much credit therefor. Mr. James should use a sharper pencil and make another point: it would be about as good as the one for which he claims such distinction.

JUDGE PRATT'S ARGUMENT.

Louisville Commercial: The nomination of the Hon. Clinton J. Pratt for the office of attorney general was one of the strongest and wisest acts of the Republican state convention. This was well appreciated at the time, but the character of the campaign which Judge Pratt is making before the people enforces the correctness of this estimate of his candidacy in a way not less than remarkable. Two things have already been made clear: There is no better material in the state for the attorney generalship, and there is no stronger man on the stump anywhere—in Kentucky or in any other state—than Judge Pratt.

The Judge's speech at Wickliffe Tuesday was a demonstration of the truth of what has just been said. It was such an analysis of prevailing civic and political conditions in Kentucky as made them clear to every citizen within the range of Judge Pratt's voice, and it was such a plea to his fellow citizens to organize and to fight for the preservation of their rights as could have been made only by a speaker with perfect knowledge of the situation and of unbounded devotion to the cause of government by the people. Judge Pratt stated the whole case now before the electorate, and stated it fairly to every political element having a part in the pending campaign. He was fair to Mr. Goebel, but he demonstrated the passing of popular government in Kentucky with Mr. Goebel's

election as governor. He was fair to ex-Gov. Brown, but he made it clear that the only certainty of saving the right of suffrage in this state, that the unfailing way to overthrow Goebels, lay in the direct vote by men of all parties for Gen. Taylor and the Republican state ticket and for the Republican nominees for the legislature. Judge Pratt's eloquent presentation of the issues before the people of Kentucky is of judicial temper throughout and must powerfully influence thinking voters in every community where he speaks or where printed copies of his speech may be circulated and read. It is a chief factor in the campaign for the preservation of the civic liberties of the people of this state.

EDITORIAL NOTES.

The more speeches Mr. Blackburn makes in this campaign the larger will be Gen. Taylor's majority.

The docket of the court of appeals is now with the printer. There are 383 appearances and 29 continued cases.

The United States cruiser Olympia, with Admiral Dewey on board, sailed from Villfranche for Gibraltar yesterday.

Goebel has made one discovery about his cheating election law. Before coming into use it divided the party responsible for its passage.

When the Democrats in Congress at the coming session try to get together to oppose expansion they will realize their absurd diversity of views on this subject.

Jasper county, Mo., is producing zinc and lead at the rate of \$5,000,000 a year.

In the Ohio Democratic convention a prayer denouncing the exhibition of American "brute force" in the Philippines was "vociferously applauded."

Mr. McLean, the Democratic candidate for governor of Ohio, is a shrewd and unscrupulous politician with a bar. He has lived outside the state for many years.

The coming census of Cuba will have great interest for the world.

Gov. W. J. Stone has notified the Goebel campaign committee that he would come to Kentucky to speak, spending a week here, from September 12 to 17. He will speak at Richmond, Mr. Sterling, Bardonia and Leitchfield.

Of the 6,000,000 Philippine population, Aguinaldo's disturbers represent not exceeding 30,000.

The inhabitants of Acre, a portion of South America, which is claimed by Bolivia and Brazil, have struck out for themselves, declared their independence, and formed a commonwealth.

Mr. Hohart, if renominated for vice president, will be the first to be honored with the distinction in a great many years. Re-elected he will be the first vice president to serve two terms since John C. Calhoun.

Nominee Gen. Taylor and Mr. Marshall, his running mate, in the mountains are doing fine work and are paving the way for the largest Republican majority known.

HIS BEARSHIP GONE.

Mrs. Malone Painfully Injured by a Violent Bear at the Park.

The bear that had been in La Belle park for the past year has changed his habitation. Bruin occupied a space allotted him by the park keepers near the house on top of the hill. He was chained to a post, but in time the visitors, especially the small boys, made him so vicious that it became dangerous to venture within reach of his claws. Many a dress has been torn and many a person frightened half to death this summer by unexpected attacks of the bear.

Yesterday afternoon late Mrs. Malone, mother of one of the managers of La Belle park theater, while feeding him he bear was seized and one of her limbs was bitten in a terrible manner. She screamed for help, and her son ran to her assistance and drove the bear off with a club.

Mrs. Malone was attempting to take a bucket from the bear when it attacked her. The wound inflicted is painful, but not serious. Mrs. Malone was brought to the city, and Dr. Reddick dressed the injury. Mr. Robertson, to whom the bear belongs, has taken it home. He captured it in Arkansas.

NEW LIGHTS.

It Will be Over a Month Before They Are Burning.

Superintendent Harry Wallace, of the city electric light plant, thinks that it will be at least until the middle of October before the twenty new lights recently ordered by the city, are up and shining. There has been considerable delay, but the time is fast approaching when the people will have a chance to appreciate the lights, notwithstanding the delay.

RACY ADMISSION

Editor McDonald Throws His Party Very Hard.

Hoping to Make a Point He Tells Startling Facts of Democratic Victory.

Lexington Leader: From the pen of Pat McDonald, the man who is in charge of the compilation of the Goebel Democratic campaign handbook, comes an admission that is as damaging as anything that will be elicited from anyone that favors Wm. Goebel for governor. McDonald is "pettified" by the Republicans to put his little gem of campaign thunder into the Democratic handbook. It is too refreshing to be buried in the columns of his paper, the Western Argus, of Frankfort, of the date of August 24.

He says that the present city officials of Frankfort are Democrats, that five lives were lost in carrying this election and that it was carried by fraud, and that this fraud was all committed under the old election law. If this is the situation under the old election law, under which the Republicans had some measure of representation, what is the bluff of violence and corruption under an election law, such as the Goebel election law, which is perfectly partisan?

Frankfort bears the palm for rotten local politics in Kentucky, and McDonald's statement is but a frank admission of the justice of the reputation. The present office holders there, elected by fraud and bloodshed, so McDonald says, are against Goebel now, a fact that brings forth the editorial. Having passed through one election day of terror, it is reasonable to believe that they want to at least avoid another worse under the Goebel election law, and repudiate it as too dangerous.

Here is what McDonald says in his editorial: This city has been run by the old election law for years, and is about run to destruction. Take a survey of the situation today. The present officials were elected as Democrats. The holders of the best offices are boaters and are fighting the party. These gentlemen cry out fraud at Louisville, when every one knows that the offices they hold were secured through an election where legal voters were prevented from casting their suffrage. Five men lost their lives in carrying this election. Yet not one resignation or refusal has come from them. They have drawn their pay with usual regularity, and they want to be continued in office. Some of them will say: "I will support the Democratic ticket, but it is fraudulent." This fraud was all committed under the old election law.

The stock cry of those supporting the Goebel election law has been that under the old law the Republicans have committed frauds and convicted themselves. In the above expression McDonald is evidently angry that Democrats whom he does not like were beneficiaries under the old law.

Under the Goebel election law, everything should be a clean sweep for the Goebelites, the McDonalds and the others who are in the election syndicate and not even Democrats who are not on the inside will be permitted to win an election. Under the old election law, it appears, to McDonald, Democratic offices could not be centralized enough, therefore the Goebel election law is what is needed. Honest Pat McDonald. Put it in the handbook.

TROUBLE AT BROOKLYN.

Elder Wolfe Gets a Roast, But Doesn't Mind That.

Brooklyn is going through a series of local disturbances, according to the Metropolitan Herald. For some reason strife seems to exist between two factions—different church denominations. These two factions are championed by the local papers, the Eagle and the Citizen. The editor of the Eagle, Elder G. Lay Wolfe is also the pastor of the Christian church. With somewhat of a combative disposition and a desire for glory he has entered politics and made the race for city mayor last spring. He was defeated and the Citizen's man was elected.

By some people the reverend gentleman is thought to be too much inclined toward the ways of the world. Last week the Citizen, edited by Hal Bros., came out in a two column editorial charging him with divers and sundry sins, among which was that of drinking too much "fire water" for a man in his position.

Coming as it did right before the beginning of the camp meeting, in which Elder Wolfe is one of the leading lights, the editorial created no little sensation, so much so in fact, that Revivalist Howles made it the subject of his remarks a few evenings ago. These remarks are said to have been of a nature not calculated to pour oil on the troubled waters.

Elder Wolfe continues to assist in the work of the camp meeting, and what the outcome of it all will be we are just now unable to guess.

DEWEY'S RECEPTION.

Electrical Display to Be Made on Brooklyn Bridge.

NEW YORK, Sept. 1.—The plan of the Dewey parade as now arranged will be as follows: On Saturday morning, September 30, the opening feature will be the presentation of the loving cup to the

admiral at the city hall by the mayor. It is expected that several German singing societies will sing in City hall park, welcoming the admiral. The equivalent of the freedom of the city will be given, and he will be escorted to the lawn of the Claremont, where breakfast will be tendered him and his staff by the mayor. After breakfast the parade will start from Grant's tomb.

Admiral Dewey will ride in a carriage with the mayor, escorted by his staff and the marines from the Olympia. From Grant's tomb the parade will pass down Riverside drive to Seventy-second street, from Seventy-second to the Boulevard, thence to Fifty-seventh street, thence to Fifth avenue and to and through the Dewey arch and through Washington square.

The committee of arrangements in charge of the decorations for the Dewey reception have agreed upon the plans for the electrical illumination of Brooklyn bridge. On each of the tall towers there will be affixed a searchlight thirty inches in diameter, which will be readily seen all over Greater New York and New Jersey. In the center of the bridge span, looking down East river the words "Welcome, Dewey" in illuminated letters will be placed. This design will be thirty-five feet high and three feet deep. The letters will be the largest illuminated ones ever made, and will occupy a space four hundred feet in length. The lights will be strung on wires suspended from iron poles about thirty feet apart. There will be no backing to the letters, and the lights will be seen both up and down the river. All of the lights will be white in color and there will be 8,000 of sixteen candle power each.

CAMPAIGN COMMITTEE.

Expected That Republicans of County Will Be Appointed.

It is expected that the Republican campaign committee for this county will be appointed at Louisville today or tomorrow.

Mr. W. J. White will probably be chairman, and the other members probably, Captain Ed Farley, J. R. Puryear, E. E. Bell.

Judge Pratt has canceled his appointment at Smithland, but in effort will be made to get Judge Pratt to speak there.

FIRE STATION IMPROVEMENTS

The Sewerage Attachments Will
Be Made.

Sewerage Inspector George A. Gar-
ner has completed the plans for the
closets, bath tubs and other sewerage
attachments for fire station No. 1.
The work will be about \$140, three times
greater than at first estimated, but
the improvement will be well worth
it, and will be made nevertheless.
In addition, the city will shortly con-
nect the electric light plant with the
other public buildings, with the sewer-
age.

STREET FAIR.

There was a good crowd of repre-
sentative business men at the meeting
held last night at the city hall for the
purpose of arranging for a street fair.
The result was most encouraging, as
about \$3,700 was subscribed in a short
time, and considerable enthusiasm
was shown.

Speeches touching on the fair were
made by several persons present, and
Mr. Charles Wells has appointed a
committee to go to Cairo and consult
with the committee there relative to
holding a street fair, and get the
benefit of their experience.

It is hoped to hold the street fair here
sometime after the 15th of October.
The pledges last night ranged from
\$200 to \$15. The committee appointed
to solicit subscriptions is composed of:
R. T. Lightfoot, W. F. Paxton, Charles
Wells, Henry Peter, John Rock,
George Detzel, G. R. Davis, Jake Wal-
terstein, John Keller, Dr. King Brooks,
George J. Jones and A. N. Clarke.

The committee has been hard at
work today and it is understood has
made pretty good progress. Mr.
Wells leaves for Cairo in the morn-
ing to confer with the fair people.
The people have begun to feel a
lively interest in the fair, and ex-
pect to make it one of the best in
the state.

SET FOR TOMORROW.

The malicious assault case against
Walter Bray, in jail charged with
breaking E. Thalmuer's leg with a
club, is set for tomorrow in Judge
Sanders court. It is probable that the
prosecuting witness will be unable to
attend court. Bray was to have gone
to Water Valley yesterday to assist in
putting in a large pottery.

FINED FOR FIGHTING.

Ernest Alzman and Doc Scholerfeld
had kissed and made up when they ap-
peared in the police court, notwith-
standing there were still traces of
darkness about the orls of the afore-
said Alzman. Doc is something of a
pugilist, and made his appearance last
winter before the Paducah Athletic
club. Judge Sanders taxed the boys
\$3 and costs each for their fun.

MESSAGES 12 MILES.

Satisfactory Experiments With
Wireless Telegraphy.

Experiments with wireless tele-
graphy were made between Blue Hill
observatory in Milton and Harvard
memorial tower in Cambridge, Mass.,
a distance of twelve miles, on Sat-
urday. They were partly successful,
sufficiently so to encourage the
scientific men who are working at the
problem of sending messages through
space by means of kites.

But there are difficulties at the re-
ceiving station at Harvard, largely
the result of the many electrical in-
fluences in the vicinity, which dis-
turb and interrupt the current neces-
sary for the transmission of messages.
Efforts will be made to prevent these
influences from making themselves
felt, but if they do not meet with
success, and probably they will not
at first, then the receiving station
will be placed at Blue Hill and the
messages will be sent from Harvard.
The former station, 640 feet above
the sea level, is two or three miles
from any electrical works of any kind,
and as their proximity to the sending
apparatus will disturb it very little,
if any, the experiments may be more
successful.

No results have been obtained that
lead experimenters to think wireless
telegraphy will be of immediate
commercial value, but much has been
learned in this new field and the re-
sults have encouraged them to per-
sue etc.

WRIT OF DELIVERY.

Constable Mayre Discovers a Lot
of Hidden Property.

Justice Emery this morning issued
a writ of delivery in favor of Public
Administrator F. G. Rudolph against
Mr. Huff and Mrs. Charity, who oc-
cupied a shanty boat near Island
Creek. The property discovered in-
cluded 12 fishing nets, trunk, cloth-
ing, quilts and a skirt, which were
all taken by the officer.

The goods belong to the estate of
the late Mrs. Will Hamilton, who
died, and it is supposed were hidden
away to prevent the administrator
from finding them.

MRS. ELLIS EXPLAINS.

Mrs. John Ellis, who was yester-
day made the defendant in a peti-
tion for divorce, states that most
of the charges brought in the suit are
false, and that all she ever did was
to be fully justified in doing, and
would have been justified in doing
more.

FIRE AT DIXON.

night came near destroying the

guished before any great damage
was done, and were supposed to have
been of incendiary origin.

A dispatch from Pittsburgh says
The coal operators herabouts are kept
busy these days watching their coal
fleets. The craft are beginning to
leak pretty badly in some instances,
caused mostly by swells from passing
scauers rocking the boats and barges.
The Monongahela river was cracked
with swiftness yesterday. It is used
to fill the cracks in the coalcraft, and,
according to the operators, it is the
only way leaking can be overcome.
The consumers of coal at Cincinnati and
Louisville will have to pay more for
coal just as soon as the Monongahela
River Coal and Coke Company becomes
operative, according to a prominent
coal operator, and the next shipment
of coal to both places named will be
sold at an advance.

Sharp's Bar is at the head of Grand
Chain instead of Little Chain.

The Red River eight days out from
Louisville arrived last night. She
had a lighter in tow with about 150
ten of freight. Captain Farnsley says
the river between here and Louisville
is an angry condition.

The Joe Fowler departed on time
for Cairo this morning with a very
good trip of passengers. Captain
Cole, who is pilot on her says the chan-
nel is cutting out some at Sharp's
Bar. He sounded there and found a
feet.

The Red River's machinery is a curi-
osity to many of those who saw her
while here. Her cylinders are 7
inches by 14 inches, one Scotch boiler
10 feet long by 60 inches in diameter.

The new Peter's Lee would stop here
for completion, but owing to the fall-
ing river her owners are afraid of the
water on Grand Chain, so they will
take her through to Cairo where
the finishing touches will be put on
her. She is four days out from Louis-
ville.

The Bob Dudley will arrive from
Clarksville tomorrow and withdraw
from the Cumberland river trade, hav-
ing been chartered by the Evansville
Paducah and Cairo Packet Company. She
will likely take the place of the J. B.
Richardson, leaving here for Evans-
ville next Monday morning. If this
move is made the J. B. Richardson will
take the place of the Joe Fowler, now
filling the place of the Dick Fowler
in the trade from here to Cairo.

The City of Paducah is overdue from
St. Louis to Tennessee river. The low
stage of water has thrown off time.

Boiler and hull inspectors Wyatt
and Green, of Nashville, will arrive
next Tuesday to inspect the Chat-
tahoona, and investigate some preferred
charges against several steamboat men
here.

The steamer Tennessee arrived out of
Tennessee river at 1 o'clock this morn-
ing with all the freight water in.
Tennessee river would permit her to
carry. She leaves at 5 p. m. tomorrow
on return trip.

The J. N. White will be ready to
come off the ways tomorrow evening
and next Monday will take the place
of the George Cowling, which will stay
a few days for repairs.
